Professional Profile

I am an entrepreneur and managing director working internationally, with 15+ years of experience in building, scaling and strategically developing digital and technology-driven business structures. My work focuses on optimising digital processes, AI-powered automation and building scalable systems and frameworks for international business models.

I also work as a finance expert and bookkeeper: I independently manage the bookkeeping for several of my own companies, optimise financial and reporting processes, and support clients in building long-term wealth. I advise on the creation of diversified portfolios (including equities, cryptocurrencies, property/land, gold and silver), with the aim of structuring capital efficiently and establishing long-term streams of passive income.
